Depending on the event concept, the 266 m² hall with its fixed stage can be transformed into a modern lounge, a comfortable conference room or a venue for romantic weddings, exuberant parties, melodious concerts or professional shootings.

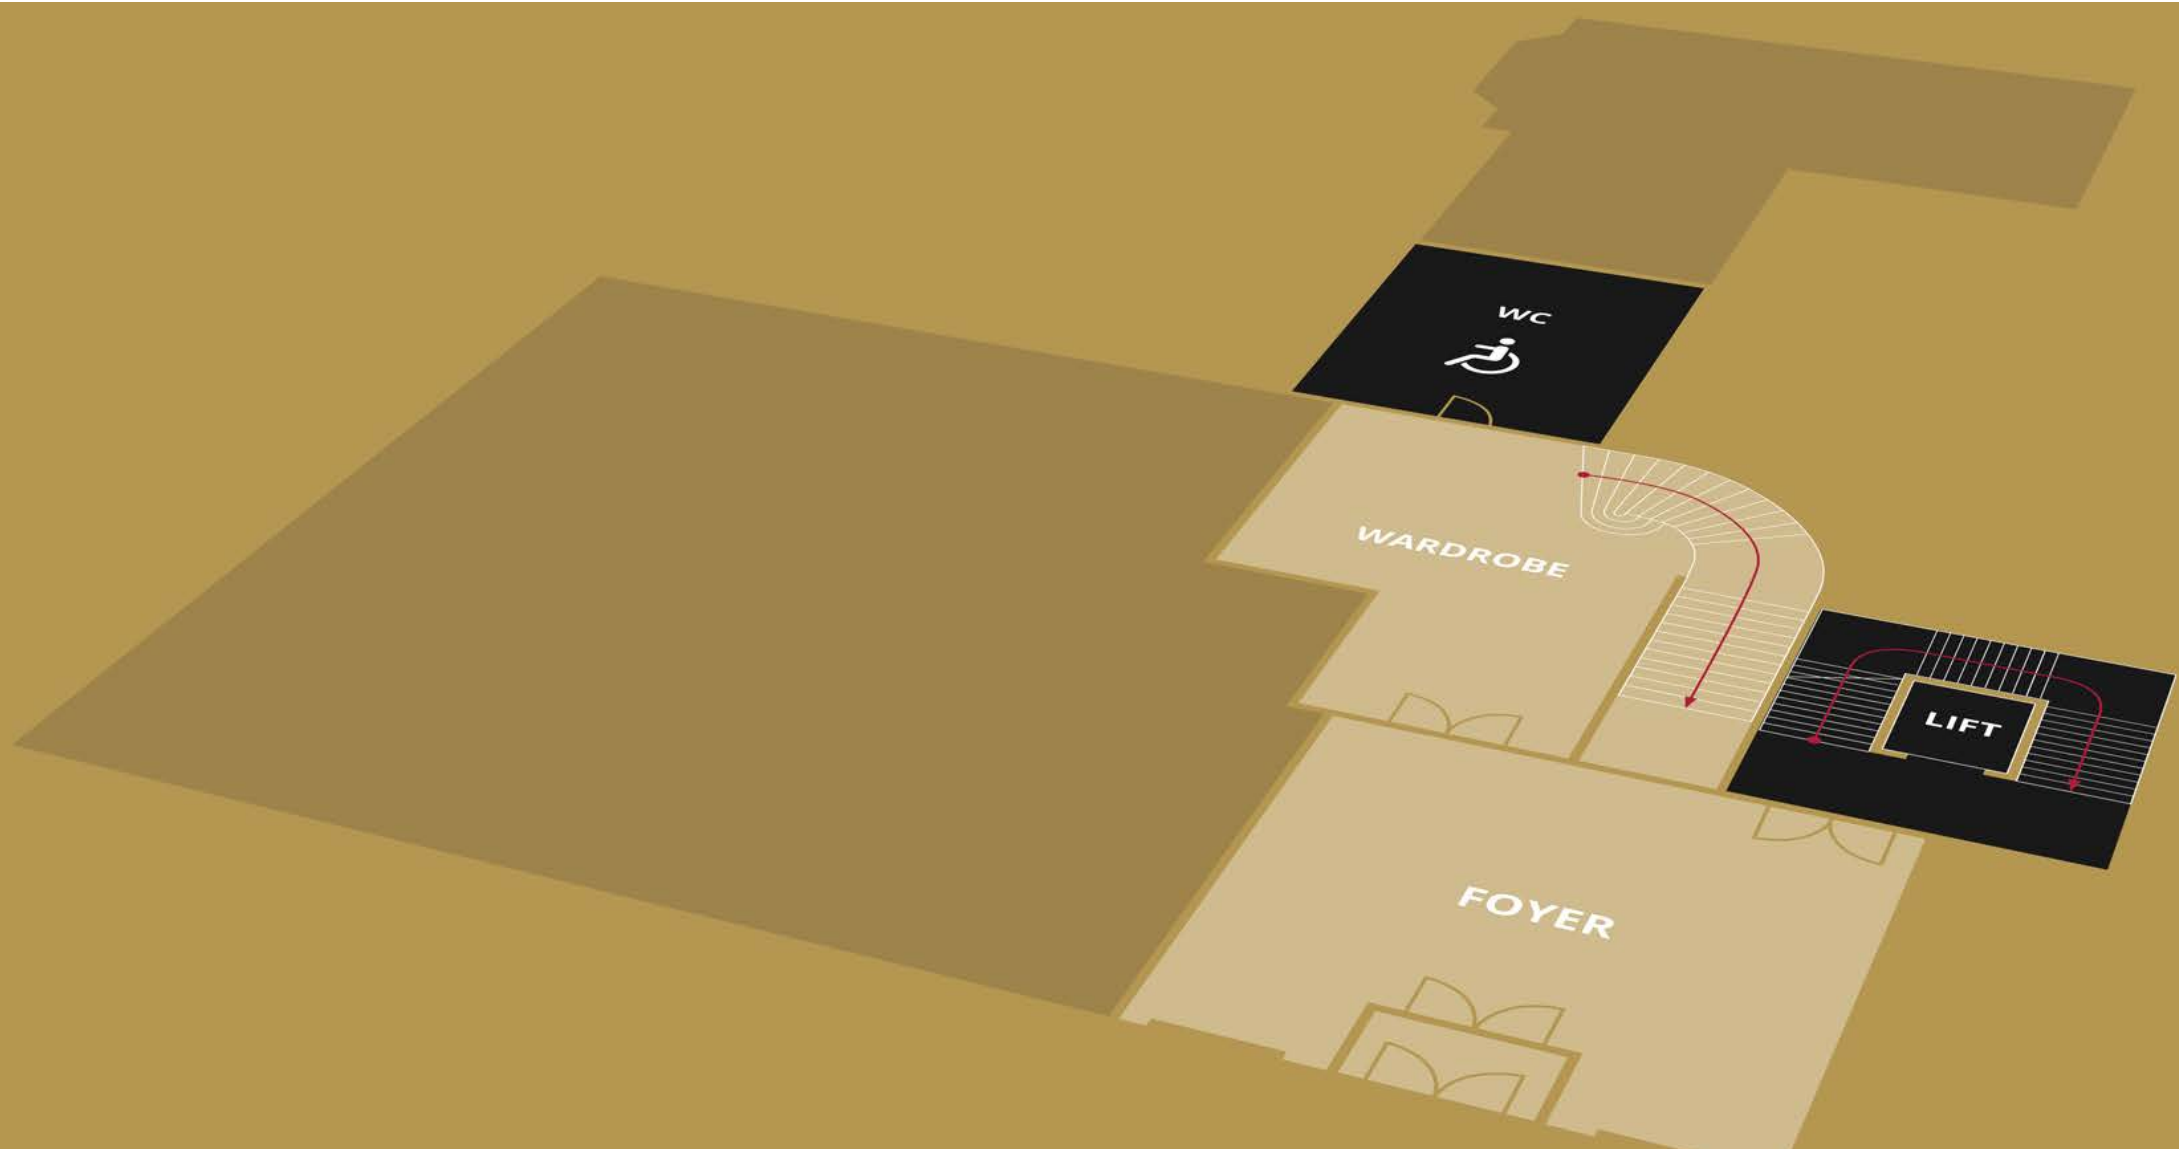

Excellent all-round service included: a dedicated contact person will be at your side from the initial enquiry through to implementation. Together with our partner companies, we will turn your event into a unique experience.

SUSTAINABILITY COUNTS

An eventful history obliges us to act with the future in mind. This is why sustainability is a central component of our corporate culture. Our basic intention is to pursue the values that are derived from the three pillars of sustainability:

ECONOMICAL

As a sustainable company, we also generate profits that are channelled into maintaining our historic event location, for example. Our aim is to act in a way that will not harm future generations.

ECOLOGICAL

As a sustainable company, we are committed to the conscious use of water, energy and finite raw materials. This applies in particular to the consistent reduction of CO₂ emissions.

SOCIAL

We place people and the common good at the centre of our actions. Justice, security, fair pay, the protection of employees' interests and the opportunity for training and professional development are our top priorities.

Both the Meistersaal and the BESL Eventagentur have received the internationally recognised „Sustainable Meetings Berlin“ sustainability certification with the „High Performer“ level from VisitBerlin.

The criteria are based on international standards such as ISO norms and the German Sustainability Code. In 2023, the Berlin criteria were also recognised by the Global Sustainable Tourism Council (GSTC).

The Meistersaal has been certified by [Reisen für Alle](#) (Tourism for All). This is an information and rating system that enables guests to independently assess whether an offer meets their requirements.
